- Continuing education and licensure renewal covered by the practice
- Flexible PTO
- Flexible work schedule

Requirements:

Education

- Bachelor's, Master's, or Doctorate in Physical Therapy from an accredited School of Physical Therapy.

Licensure/registration/certification

- Current NC Board of Physical Therapy license or eligible (will hire before graduation with confirmation of getting license).
- 2-5 years of experience preferred, but the right new grad will be considered!
- Job Type: Full-time

Who is Orthopaedics East?

Orthopaedics East & Sports Medicine Center is the premier orthopaedic practice in Eastern North Carolina. We started in 1998 because of a merger between two local practices and moved into our current 40,000 square foot facility in 2004. We serve a broad 10-county geographic region with only 53% of our patients residing in Pitt County.

Greenville, NC is home to East Carolina University and our physicians serve as the Official Team Physicians for ECU Athletics

In 2021, we saw more than 58,000 patients, of which 12,000 were seen by our Physical Therapy staff. We are committed to patient-centered care which can be seen by our survey results which shows 97% would recommend us to friends and family.

Our practice continues to grow and get busier, and we are looking to continue to grow our team to continue to provide the highest quality care to all our patients.
